PROFILE

I bring over two years of experience as a Laravel and React Developer at Myanmar ICT Solutions Co Ltd, where I significantly contributed to various web application projects. Prior to this, I gained diverse experience, including on-the-job training as a Junior Web Developer at Lyrion Co Ltd and a brief role as a Web Development Assistant Teacher at MST University. Through these experiences, I have honed proficiency in both frontend and backend development, troubleshooting, and training, establishing myself as a versatile and accomplished professional in the industry. Recently, I assumed the role of Senior PHP Web Developer at MySol Co. Ltd, further expanding my expertise and responsibilities.
